

Below are the details of our trip to Atmosphere in 2019. We visited Atmosphere in October & were impressed with the resort & the diving (despite the weather we had).

The resort is set in a lovely landscaped garden, the bungalows were spacious & very comfortable & the outside shower was an experience not to be forgotten. We were well fed from breakfast to dinner, the food being a mix of asian & western was enjoyed by all.

The diving is mainly from a boat, though shore diving is available (see the document for details) & involves looking for small exotic marine life including frogfish, Ambon scorpionfish, manderinfish, flamboyant cuttlefish, ghost pipefish, nudibranch, harlequin shrimp, mantis shrimp, ribbon eels & jawfish. These critters are masters of camouflage & thanks to the seasoned eyes of Atmosphere's dive guides on our trip we were very lucky with what we saw. In addition the trips to Apo Island offers the opportunity of seeing turtles, jacks & bumphead parrotfish. Although not included in the cost of our trip Atmosphere offers a trip Oslob where you can snorkel with whale sharks.

On our visit last October we flew with Etihad from Manchester via Abu Dhabi to Manilla where we had a overnight stay before transferring to Dumaguete on a domestic flight, followed by a short bus transfer arranged by Atmosphere. The return flight was in reverse without the overnight stay in Manila.

Hope to hear from you soon,

Maureen
